Sav-way Food Mart,

Appellant,

v.

Case Number: C0221970

Retailer Operations Division,

Respondent.

FINAL AGENCY DECISION

The USDA, Food and Nutrition Service (FNS) finds that the decision of the Retailer Operations Division to impose a three year disqualification from the Supplemental Nutrition Assistance Program (SNAP) as a result of Women, Infants, and Children (WIC) program violations, was properly rendered against Sav-way Food Mart (Appellant). There is also sufficient evidence to support a finding that the denial of a hardship Civil Money Penalty (CMP) is appropriate and in accordance with Section 278.6(f)(1) of the SNAP regulations.

ISSUE

The issue accepted for review is whether the Retailer Operations Division took appropriate action, consistent with 7 CFR § 278.6(e)(8)(iii) in its administration of the SNAP when it disqualified Appellant for a period of three years and denied assessing a hardship civil money penalty in lieu of disqualification by letter dated December 11, 2019.

AUTHORITY

7 USC § 2023 and the implementing regulations at 7 CFR § 279.1 provide that “A food retailer or wholesale food concern aggrieved by administrative action under § 278.1, § 278.6 or § 278.7 . . . may file a written request for review of the administrative action with FNS.”

CASE CHRONOLOGY

In a letter dated October 3, 2019, the Retailer Operations Division informed Appellant that as the result of the May 31, 2019, Ohio WIC program disqualification for three years, due to violations of WIC program rules and regulations, the Retailer Operations Division was considering a SNAP reciprocal disqualification in accordance with 7 CFR § 278.6(e)(8). The Retailer Operations

Division reviewed all documents provided by the Ohio Department of Health, and determined the State Agency's actions met the regulatory requirements, and that the firm received proper notification of the potential that it could be reciprocally disqualified from SNAP in response to the WIC disqualification. Appellant replied to the charge letter on October 17, 2019, and requested a Civil Money Penalty.

On December 11 2019, the Retailer Operations Division informed Appellant that in accordance with Section 278.6(e)(8)(iii) of the SNAP regulations, Appellant's disqualification would not cause hardship to SNAP households since there are other authorized retail stores in the area selling a variety of staple foods at comparable prices. This notification also stated that this disqualification determination was final and not subject to administrative review, but that appeal rights were available regarding the firm's eligibility for a hardship CMP.

By letter postmarked December 26, 2019, Appellant, through counsel, appealed the Retailer Operations Division's decision to deny the CMP in lieu of a three year disqualification. The appeal was granted and implementation of the sanction has been held in abeyance pending completion of this review.

STANDARD OF REVIEW

In appeals of adverse actions, the Appellant bears the burden of proving by a preponderance of the evidence, that the administrative actions should be reversed. That means the Appellant has the burden of providing relevant evidence which a reasonable mind, considering the record as a whole, would accept as sufficient to support a conclusion that the matter asserted is more likely to be true than not true.

CONTROLLING LAW

The controlling statute in this matter is contained in the Food and Nutrition Act of 2008, as amended, 7 U.S.C. § 2021 and 278 of Title 7 of the Code of Federal Regulations (CFR). 7 CFR § 278.6 establishes the authority upon which a reciprocal SNAP disqualification may be imposed against a firm disqualified from the WIC program.

7 CFR § 278.6(e)(8)(i)(A) reads, in part:

FNS **shall disqualify** from the Supplemental Nutrition Assistance Program (SNAP) any firm which is disqualified from the WIC Program: (i) Based in whole or in part on any act which constitutes a violation of that program's regulation and which is shown to constitute a misdemeanor or felony violation of law, or for any of the following specific program violations ... a pattern of claiming reimbursement for the sale of an amount of a specific food item which exceeds the store's documented inventory of that food item for a specified period of time [Emphasis added.]

7 CFR § 278.6(e)(8)(ii) states:

FNS shall not disqualify a firm from the Food Stamp Program on the basis of a WIC disqualification unless:

- (A) Prior to the time prescribed for securing administrative review of the WIC disqualification action, the firm was provided individual and specific notice that it could be disqualified from the Food Stamp Program based on the WIC violations committed by the firm;
- (B) A signed and dated copy of such notice is provided to FNS by the WIC administering agency; and
- (C) A determination is made in accordance with paragraph (a) of this section that such action will not cause a hardship for participating Food Stamp [SNAP] households.

7 CFR § 278.6(e)(8)(iii) states, in part, that the SNAP disqualification:

- (A) Shall be for the same length of time as the WIC disqualification;
- (B) May begin at a later date than the WIC disqualification; and
- (C) Shall not be subject to administrative or judicial review under the Food Stamp Program. [Emphasis added.]

7 CFR § 278.6(f)(1) reads, in part:

FNS may impose a civil money penalty as a sanction in lieu of disqualification when the **firm . . . is selling a substantial variety of staple food items, and the firm's** disqualification would cause hardship to SNAP households because there is no other store in the area selling as large a variety of staple food items at comparable prices. (Emphasis Added)

APPELLANT'S CONTENTIONS

In the administrative review request postmarked December 26, 2019, Appellant, through counsel, provided the following summarized contentions, in relevant part:

- Appellant requests a CMP.
- Appellant has been in business for 8 years and this is its first violation.
- This the only source of income for the owner's family.
- There are two part-time employees who also derive income from the store.
- This is a very poor neighborhood and individuals walk to the store.
- The owner did not understand that it had to keep all the receipts for the formula it purchases.
- The regular supplier was out of stock and the owner went to Sav-A-Lot.
- Appellant was disqualified even though there was no evidence of wrongdoing.
- About half of Appellant's business is from SNAP.

The preceding may represent only a brief summary of the Appellant's contentions presented in this matter. However, in reaching a decision, full attention was given to all contentions presented, including any not specifically recapitulated or specifically referenced.

ANALYSIS AND FINDINGS

Regarding Appellant's contention, it is important to clarify for the record that this review is limited to what circumstances were at the basis of the Retailer Operation Division's action at the time such action was made. As cited, the disqualification from SNAP for three years is not subject to administrative review. The sole appealable issue in this case is if the Retailer Operations Division properly considered the firm's eligibility for a hardship CMP.

The Retailer Operations Division reviewed whether or not Appellant was eligible for a hardship CMP in lieu of the three year disqualification. For a determination of hardship, as opposed to inconvenience, there must be an absence of any other authorized retail food store comparable to the disqualified store, in the area of consideration. The Retailer Operations Division determined that there of 24 authorized stores located within a one-mile radius of Appellant including 15 other convenience stores, one small grocery, five combination stores, two supermarkets, and one super store. Although it may cause inconvenience for some SNAP recipients if Appellant is disqualified, such possible inconvenience does not rise to the level of hardship as required for assessment of a civil money penalty. The record documents that the Retailer Operations Division properly considered Appellant's eligibility for a hardship CMP according to the terms of Section 278.6(f)(1) of the SNAP regulations, and appropriately denied such.

Appellant Hardship

Appellant contends that it will be an economic hardship if the firm is disqualified. However, there is no provision in the SNAP regulations for a waiver or reduction of an administrative penalty assessment on the basis of possible economic hardship to the firm resulting from imposition of such penalty. To excuse ownership from assessed administrative penalties based on purported economic hardship to the firm would render virtually meaningless the enforcement provisions of the Food and Nutrition Act of 2008 and the enforcement efforts of the USDA.

Moreover, giving special consideration to economic hardship to the firm would forsake fairness and equity, not only to competing stores and other participating retailers who are complying fully with program regulations, but also to those retailers who have been disqualified from the program in the past for similar violations. Therefore, Appellant's contention that the firm will incur economic hardship based on the assessment of an administrative penalty does not provide any valid basis for dismissing the charges or for mitigating the penalty imposition.

No Previous Violations

Appellant explains that it has been authorized for eight years without any previous violations. A record of participation in the SNAP with no previously documented instance of violations does not constitute valid grounds for dismissal of the current charges of violations or for mitigating the impact of the violations upon which they are based. There is no provision in the Act or

regulations that reverses or reduces a sanction based upon a lack of prior violations by a firm and its owners, managers and/or employees.

CONCLUSION

The decision to deny the imposition of a hardship civil money penalty in lieu of a three year SNAP disqualification against Sav-way Food Mart is sustained. In accordance with the Food and Nutrition Act of 2008, as amended, and the pursuant regulations, the three year period of disqualification shall become effective thirty days after receipt of this letter. A new application for participation may be submitted by the firm ten days prior to the expiration of this three year disqualification period.
