Shelton Food Mart,

Appellant,

v.

Retailer Operations Division,

Respondent.

Case Number: C0196907

FINAL AGENCY DECISION

It is the decision of the U.S. Department of Agriculture (USDA) that the record supports that Shelton Food Mart (Appellant) committed violations of the Supplemental Nutrition Assistance Program (SNAP) regulations. There is sufficient evidence to sustain a six month disqualification of Appellant from the SNAP as imposed by the Retailer Operations Division (Retailer Operations).

ISSUE

The issue accepted for review is whether Retailer Operations took appropriate action in its administration of the SNAP, consistent with 7 CFR § 278.6(f)(1), 7 CFR § 278.6(a), and 7 CFR § 278.6(e), when it imposed a six month period of disqualification against Appellant.

AUTHORITY

7 U.S.C. § 2023, and the implementing regulations at 7 CFR § 279.1, provide that a food retailer aggrieved by administrative action under § 278.1, § 278.6, or § 278.7, may file a written request for review of the administrative action with the Food and Nutrition Service (FNS).

CASE CHRONOLOGY

The USDA conducted an investigation of the compliance of Appellant with federal SNAP law and regulations during the period of September 6, 2018, through October 19, 2018. The investigative report documented that personnel at Appellant accepted SNAP benefits in exchange for ineligible merchandise on multiple separate occasions that warrant a six month

disqualification period. The items sold on multiple dates are best described as common nonfood items.

As a result of evidence compiled during the investigation, by letter dated February 7, 2019, Retailer Operations charged the owner with violating the terms and conditions of the SNAP regulations. Misuse of SNAP benefits was noted in Exhibits A, B, C, and D, that warrants a disqualification as a SNAP retail food store for a period of six months. The letter also states that under certain conditions FNS may impose a civil money penalty (CMP) in lieu of a disqualification.

The record shows that the owner replied to the Charge letter in writing on February 11, 2019. Retailer Operations informed the owner by Determination letter dated June 5, 2019, that the violations cited in the Charge letter occurred at the firm and that a six month period of disqualification was warranted. The letter also stated that eligibility for a hardship CMP was not applicable as there are other authorized retail food stores in the area selling as large a variety of staple foods at comparable prices.

The owner appealed the determination by written letter dated June 6, 2019. The administrative review was granted by letter dated June 20, 2019. The owner provided additional information postmarked June 22, 2019.

STANDARD OF REVIEW

In an appeal of an adverse action, the Appellant bears the burden of proving by a preponderance of the evidence, that the administrative action should be reversed. That means the Appellant has the burden of providing relevant evidence that a reasonable mind, considering the record as a whole, would accept as sufficient to support a conclusion that the argument asserted is more likely to be true than not true.

CONTROLLING LAW AND REGULATIONS

The controlling statute in this matter is contained in the Food and Nutrition Act of 2008, as amended, 7 U.S.C. § 2021 and § 278 of Title 7 of the Code of Federal Regulations (CFR). Sections 278.6(a) and (e)(5) establish the authority upon which a six month disqualification may be imposed against a retail food store.

7 CFR § 278.2(a) states: “Coupons may be accepted by an authorized retail food store only from eligible households or the households’ authorized representative, and only in exchange for eligible food.”

7 CFR § 278.6(e)(5) of the SNAP regulations states that a firm is to be disqualified for six months “if it is to be the first sanction for the firm and the evidence shows that personnel of the firm have committed violations such as but not limited to the sale of common nonfood items due to carelessness or poor supervision by the firm’s ownership or management.”

7 CFR § 278.6(a) states: “FNS may disqualify any authorized retail food store if the firm fails to comply with the Food and Nutrition Act of 2008, as amended, or this part. Such disqualification shall result from a finding of a violation on the basis of evidence that may include facts established through on-site investigations, inconsistent redemption data, evidence obtained through a transaction report under an electronic benefit transfer system.”

7 CFR § 278.6(f)(1) provides for civil money penalty assessments in lieu of disqualification in cases where disqualification would cause hardship to SNAP benefit households because of the unavailability of a comparable participating food store in the area to meet their shopping needs. It states: “FNS may impose a civil money penalty as a sanction in lieu of disqualification when the firm’s disqualification would cause hardship to SNAP benefit households because there is no other authorized retail food store in the area selling as large a variety of staple food items at comparable prices.”

SUMMARY OF THE CHARGES

A report of the investigation was provided to the Appellant as Exhibits with the Charge letter. The investigative report provides details on the results of each compliance visit. The investigative report documents that SNAP violations were recorded during four store visits that warrant a six month disqualification. The SNAP violations of 7 CFR § 278.2(a) involved the sale of nonfood items for benefits including plastic cups and paper towels.

APPELLANT’S CONTENTIONS

Consideration of all contentions was made whether recapitulated here or not.

- If we are forced to stop using EBT, we will lose a large amount of business.
- The mistake is all mine. Since the injury I do not come to the store as much and I rely on my son to work the cash register.
- I was never able to train him effectively with the EBT machine.
- He did not know about the regulations and he thought items associated with food like napkins and plates were allowed with EBT. That is my fault.
- Since then he has not had an incident with EBT and I am at the store more frequently to keep an eye on things.
- Please help us to help all these customers. A lot are elderly and come to our store every day. We need EBT for them.
- Due to an attempted robbery, my husband and I were severely injured in the incident. As a result, my oldest son had to run the store for a period of time until we were finally able to start back working, and we let our oldest son go back to his previous job.
- As time has gone by our health have been declining, so we had to ask our youngest son to work for us after he graduated college in 2018. I wasn’t able to properly train him on SNAP regulations, and he was unaware that items such as paper towels and cups were not

allowed with SNAP. He thought items that were used with foods or drinks were allowed and I did not tell him that beforehand.

- In regard to my husband being involved in one incident, due to his poor health, he was unaware of what was being sold. Because of the decline of his mental state, he will not be allowed to work the cash register, and I have already taught our son on the proper SNAP regulations. Please reconsider our WIC Program disqualification.

The owner provided medical documentation, and a State Bureau of Victim Assistance report.

ANALYSIS AND FINDINGS

This review is to either validate or to invalidate the determination made by Retailer Operations; it is limited to the facts at the basis of Retailer Operations' determination at the time it was made. Upon review, the evidence supports that Appellant established a record of selling nonfood items as defined by Section 271.2 of the regulations, on multiple occasions. The Exhibits furnished with the Charge letter warrant a disqualification period of six months. The regulations at 7 CFR § 278.6(e)(5) specify that FNS shall "disqualify the firm for six months if it is to be the first sanction for the firm and the evidence shows that personnel of the firm have committed violations such as, but not limited to, the sale of nonfood items due to carelessness or poor supervision by the firm's ownership or management." Three violations are considered evidence of carelessness. Therefore, the violations in this case are not too limited to warrant a disqualification.

Regardless of who the store owner(s) utilizes to handle store business, ownership is accountable for the proper handling of SNAP benefit transactions. The regulations establish that an authorized food store may be disqualified from participating in SNAP when the store fails to comply with the Act or regulations because of the wrongful conduct of an owner, manager, or someone acting on their behalf. The regulations stipulate that FNS disqualify the firm for six months if it is to be the first sanction for the firm, and the evidence shows that personnel of the firm have committed violations such as but not limited to as the sale of common nonfood items due to carelessness and poor supervision by the firm's ownership or management.

The charges of violations are based on the findings of a formal U.S. Department of Agriculture investigation. All such transactions are fully documented and a review of this documentation has yielded no indication of error or discrepancy in the reported findings. The investigative record is specific and thorough with regard to the dates of the violations, the specific facts related to the sales of nonfood items, and in all other critically pertinent detail. The preponderance of the evidence supports that Appellant sold nonfood items on multiple store visits in exchange for SNAP benefits, a program violation.

CIVIL MONEY PENALTY

Retailer Operations rendered a finding that it was not appropriate to impose a CMP in lieu of a six month period of disqualification from SNAP. The record documents that there are other

authorized stores within a nearby radius of Appellant that stock a variety of comparable staple foods at comparable prices. While it may be inconvenient for SNAP recipients, the evidence does not support that it will cause hardship for them if Appellant is disqualified. Therefore, Appellant is not eligible for a hardship CMP.

CONCLUSION

The preponderance of the evidence in the record supports that the program violations charged did occur at Appellant. The responding owner did not dispute that violations occurred. The record documents that Retailer Operations considered Appellant's eligibility for a hardship CMP according to the terms of Section 278.6(f)(1) of the regulations, and properly denied it. Therefore, the six month disqualification of Appellant from participation as an authorized retail food store in the SNAP is sustained. This decision is effective 30 days after the date of delivery.

RIGHTS AND REMEDIES

This penalty shall become effective thirty (30) days after receipt of this decision. A new application for participation in the SNAP may be submitted ten (10) days prior to the expiration of the six month period of disqualification.
