Star Stop #3,

Appellant,

V.

Retailer Operations Division,

Respondent.

Case Number: C0204794

FINAL AGENCY DECISION

It is the decision of the U.S. Department of Agriculture (USDA), Food and Nutrition Service (FNS), that there is sufficient evidence to support a six-month disqualification of Star Stop #3 (hereinafter Appellant), from participation as an authorized retailer in the Supplemental Nutrition Assistance Program (SNAP) as initially imposed by the Retailer Operations Division.

ISSUE

The issue accepted for review is whether the Retailer Operations Division took appropriate action, consistent with Title 7 Code of Federal Regulations (CFR) Part 278 in its administration of the SNAP, when it imposed a six-month disqualification against Appellant.

AUTHORITY

7 U.S.C. § 2023 and the implementing regulations at 7 CFR § 279.1 provides that “[A] food retailer or wholesale food concern aggrieved by administrative action under § 278.1, § 278.6 or § 278.7 . . . may file a written request for review of the administrative action with FNS.”

CASE CHRONOLOGY

The USDA conducted an investigation of the compliance of Star Stop #3, with Federal SNAP law and regulations from March 6, 2019 through June 20, 2019. In a letter dated August 15, 2019, Retailer Operations Division charged the Appellant firm with accepting SNAP benefits in exchange for merchandise which included common ineligible non-food items in violation of 7 CFR § 278.2(a). These SNAP violations occurred on five (5) out of six (6) compliance visits. The letter further informed the Appellant that the violations warranted a disqualification period of six months as provided in 7 CFR § 278.6(e)(5).

In an August 27, 2019 telephone conversation, Appellant requested an extension in which to respond to the charge letter. In a letter dated August 27, 2019, Retailer Operations Division granted Appellant a 10 day extension to September 2, 2019 in which to respond to the charge letter.

In correspondence received September 2, 2019, Appellant replied to the charge letter and generally stated that it noticed there was no verbal declaration that the customer was going to make the payment for the goods purchased using the Food Stamps card. The three clerks that are listed in the letter were not aware that the customer was to use Food Stamps to make the payment due to the payment machine being on the customer side. Appellant stated that it contacted a third party to put a new software or a pin pad that gives the customer the option to choose EBT payment that will erase all tax and detect if an item is a qualifying item to be purchased with EBT. Appellant stated that it is aware of what food items can be purchased with Food Stamps and it was an honest mistake made by the clerks that was working at the store. It has taken action to notify and correct the mistake.

After reviewing the evidence and the response from the Appellant, Retailer Operations Division issued a determination letter dated September 11, 2019. The determination letter informed the Appellant it was disqualified from the SNAP for a period of six months in accordance with 7 CFR § 278.6(a) and (e). The determination letter also stated that Retailer Operations Division considered Appellant's eligibility for a hardship CMP under 7 CFR § 278.6(f)(1). Retailer Operations Division determined that the Appellant was not eligible for the hardship CMP in lieu of the six-month disqualification because there were other authorized retail stores in the area selling as large a variety of staple foods at comparable prices.

In a letter dated September 23, 2019, the Appellant requested an administrative review of the Retailer Operations Division's determination. The appeal was accepted and the implementation of the six-month disqualification was held in abeyance pending completion of this review.

STANDARD OF REVIEW

In appeals of adverse actions, an appellant bears the burden of proving by a preponderance of the evidence, that the administrative actions should be reversed. That means an appellant has the burden of providing relevant evidence which a reasonable mind, considering the record as a whole, would accept as sufficient to support a conclusion that the matter asserted is more likely to be true than not true.

CONTROLLING LAW

The controlling statute in this matter is contained in the Food & Nutrition Act of 2008, as amended, 7 U.S.C. § 2021, and promulgated through regulation under Title 7 CFR Part 278. In particular, 7 CFR § 278.6(a) and (e) establish the authority upon which a period of disqualification may be imposed against a retail food store or wholesale food concern.

7 CFR § 278.2(a) states, inter alia: "Coupons may be accepted by an authorized retail food store only from eligible households.... Only in exchange for eligible food"

7 CFR § 271.2 states, inter alia: “Eligible food means: Any food or food product intended for human consumption except alcoholic beverages, tobacco and hot food and hot food products prepared for immediate consumption”

7 CFR § 278.6(a) states, inter alia: “FNS may disqualify any authorized retail food store... if the firm fails to comply with the Food and Nutrition Act of 1977, as amended, or this part. Such disqualification shall result from a finding of a violation on the basis of evidence that may include facts established through on-site investigations...”

7 CFR § 278.6(e)(5) states, inter alia: “Disqualify the firm for 6 months if it is to be the first sanction for the firm and the evidence shows that personnel of the firm have committed violations such as, but not limited to, the sale of common nonfood items due to carelessness or poor supervision by the firm’s ownership or management.”

7 CFR § 278.6(f)(1) states, inter alia: “FNS may impose a civil money penalty as a sanction in lieu of when... the firm’s disqualification would cause hardship to Food Stamp [SNAP] households because there is no other authorized retail food store in the area selling as large a variety of staple food items at comparable prices.”

APPELLANT’S CONTENTIONS

The Appellant made the following summarized contentions in its request for administrative review, in relevant part:

1. I understand it was a mistake, I was unaware that customer wanted to use EBT. I have changed most things in the store to prevent future possibilities.
2. I have put up a sign by the register for customers to advise the clerk that they are using EBT. I have changed the options were customer can select on the pin pad that they are using EBT.

No additional information was provided during this review. The preceding may represent only a brief summary of the Appellant’s contentions presented in this matter. Please be assured, however, in reaching a decision, full attention was given to all contentions presented, including any not specifically recapitulated or specifically referenced herein.

ANALYSIS AND FINDINGS

FNS initially authorized Star Stop #3 as a convenience store on June 2, 2016. During an investigation from March 6, 2019 through June 20, 2019, the USDA conducted six (6) compliance visits at Appellant’s store. A report of the investigation was provided to the Appellant as an attachment to the charge letter dated August 15, 2019. The investigation report included Exhibits A through F, which provide full details on the results of each compliance visit. The investigation report documents that SNAP violations were committed during five (5) of the six (6) compliance visits. They involved the sale of one 15 count pack of Home Store 9 ounce paper cups, two 16 count packs of 16 ounce plastic cups, one 15 count pack of Home

Store 8 ounce paper cups, one 150 count box of Good Sense fold lock top sandwich bags, one roll of Soft toilet paper, four 28 count packs of 9 ounce plastic cups, one 5.5 ounce bottle of Dial, and one 10 ounce bottle of Assured liquid instant hand sanitizer. A clerk refused the exchange of an undisclosed amount of SNAP benefits for cash in exhibits E and F.

Appellant did not deny that the violations took place during the investigation. With regard to Appellant's contentions, through counsel, it is important to note that as owner of the store, Appellant is liable for all volatile transactions handled by either paid or unpaid store personnel. Regardless of whom the ownership of a store may utilize to handle store business, ownership is accountable for the proper handling of SNAP benefit transactions. To allow store ownership to disclaim accountability for the acts of persons whom the ownership chooses to utilize to handle store business would render virtually meaningless the enforcement provisions of the Food Stamp Act and the enforcement efforts of the USDA. Additionally, a record of participation in SNAP with no previously documented instance of violations does not constitute valid grounds for dismissal of the current charges of violations or for mitigating the impact of those charges.

It is recognized that some degree of economic hardship is a likely consequence whenever a store is disqualified from participation in SNAP. However, there is no provision in the SNAP regulations for waiver or reduction of an administrative penalty assessment on the basis of possible economic hardship to the firm resulting from imposition of such penalty. To allow store ownership from being excused from assessed administrative penalties based on purported economic hardship to the firm would render virtually meaningless the enforcement provisions of the Food and Nutrition Act of 2008, as amended, and the enforcement efforts of the USDA.

Moreover, giving special consideration to economic hardship to the firm would forsake fairness and equity, not only to competing stores and other participating retailers who are complying fully with program regulations, but also to those retailers who have been disqualified from the program in the past for similar violations.

Furthermore, it is important to clarify for the record that the purpose of this review is to determine if the earlier decision of the Retailer Operations Division, to disqualify Appellant from participation in the SNAP for a period of six months, was in fact a correct one. It is not within the scope of this review to consider what subsequent actions Appellant may have taken so that its store may begin to comply with program requirements.

Based on a review of the evidence in this case, there is no question that program violations did occur. Clerks working at Appellant sold common ineligible items to an FNS investigator on five (5) separate investigative visits. The investigative record is specific and accurate with regard to the dates of the violations, the exchange of SNAP benefits for ineligible items, and in all other critically pertinent detail. As such, the contentions presented do not constitute valid grounds for dismissal of the current charges of violations, or for mitigating the impact of those charges. Based on a review of the evidence in this case, it appears that the SNAP violations at issue did, occur as charged.

CIVIL MONEY PENALTY

Retailer Operations Division considered Appellant's eligibility for a hardship CMP under 7 CFR §278.6(f)(1). The Retailer Operations Division determined that the Appellant was not eligible for the hardship CMP in lieu of the six-month disqualification because there were at least 11 authorized retailers within a one-mile radius of Appellant. These retailers included one (1) superstore, one (1) supermarket, four (4) combination/other grocery stores and five (5) additional convenience stores and all are selling as large a variety of staple foods at comparable prices.

CONCLUSION

The documentation presented by Retailer Operations Division provides through a preponderance of the evidence that the violations as reported occurred at the Appellant firm. 7 CFR § 278.6(e)(5) specifies that FNS shall "disqualify the firm for six months if it is to be the first sanction for the firm and the evidence shows that personnel of the firm have committed violations such as, but not limited to, the sale of common nonfood items due to carelessness or poor supervision by the firm's ownership or management.

The violations were determined by Retailer Operations Division to represent the first sanction for the firm and evidence carelessness and poor supervision. Therefore, the imposition of a six-month disqualification, the least severe penalty allowed by regulation, is appropriate.

It is therefore established that the violations as described in the letter of charges did in fact occur at the Appellant firm warranting a disqualification of six months in accordance with 7 CFR § 278.6(e)(5). Based on the discussion herein, the decision to impose a six-month disqualification against Star Stop #3 is appropriate and the action is sustained.

In accordance with the Act and regulations, the six-month period of disqualification shall become effective thirty (30) days after receipt of this letter. The Appellant may submit a new application for SNAP participation ten (10) days prior to the expiration of the six-month disqualification period.
